Subject: RE: Revised Pierce Amendment #1 in SolarCity Case

John,
Truly appreciate your and Commissioner Pierce's active involvement on these issues.

Noted the comments regarding ANM(one solar facility for customer/multiple premises-meters)and Solar Gardens(one solar facility for multiple Customers-meters). If ANM and mass demand for self-generation via SSA is approved the Solar City/SSA Developer being a PSC issue would become a huge constraint.

Ultimately I believe that these efforts will provide significant Total Cost reductions and benefits to all ratepayers.

Good job, thanks, do well tomorrow.

Terry
